Summary

Ambitious and communicative College Student with a focus on Computer Application and a passion for software development, seeking opportunities to showcase my skills and expand my professional network. Active in various projects, I aim to fuse my classroom knowledge with hands-on experience while building my personal brand in the tech industry. A collaborative team player eager to connect and engage with peers and professionals alike.

Education and training

Bachelor of Computer Applications   *5 Jul 23 - Present*

Currently pursuing a degree in Computer Applications with a keen interest in software development, I've received recognition for my academic achievements and active participation in technology-related clubs.

Personal skills

Communication skills

My ability to clearly articulate ideas and collaborate with others has been developed through group projects and presentations at university, where I frequently engage with peers to exchange knowledge and promote a positive learning environment.

Organisational / managerial skills

I have honed my organizational skills by balancing academic responsibilities alongside extracurricular activities, where I prioritize tasks effectively to meet deadlines and ensure a structured approach to achieving my objectives.

Job-related skills

As a Computer Application student, I have gained a foundational understanding of key programming languages such as Java and Python, completing several projects that showcase my ability to apply theoretical knowledge in practical settings, particularly in software development.

Digital skills

I have developed proficiency in various software tools and programming environments, such as Git, Visual Studio Code, and various IDEs, utilizing these platforms to streamline my coding processes and enhance project collaboration.

Further information

- *TNDS FEWD CLOUD DEVELOPMEN*
- *EDUNET SKILL BUILD ORIENTATION*

Courses

- Data Structures and Algorithms
- Introduction to Software Engineering
- Web Development Fundamentals

Projects

- *Campus Event App:* Co-developed a mobile application that connects students with campus events, using React Native and Firebase.
- *Personal Portfolio Website:* Created a personal portfolio showcasing my projects and skills using HTML, CSS, and JavaScript.
